GOVINITY AGENDACYCLE

Every item, from draft to decision. Done your way.

AgendaCycle carries every item from submission to final action on one record. A returned item goes back to the department that owns it, not into the clerk's inbox.

Your review chains, your agenda format, your state's posting rules.

HOW AGENDACYCLE WORKS

1 Submit
Item-specific forms with the right requirements.

2 Review
Your real review chain, with owners and due dates.

3 Assemble
Build the agenda once. The packet compiles itself.

4 Publish
Deadline-aware posting and an accessible packet.

WHY AGENDACYCLE

The right people. The right review. Your rules.

Natively integrated
Built on one platform with Tenure and Gavel. Members and votes flow in with no re-entry.

Complete items from the start
Item-specific forms ask the right questions, and required pieces must be in before an item moves.

Returned items, fixed in place
The department is told why, edits its own item, and it re-enters the workflow automatically.

Easy-to-change workflows
A visual builder. Routing follows roles, not names, and custom fields pick the next reviewer.

Accessibility at the door
Attachments are checked as they're added, with one-click fixes. Packets built to WCAG 2.1 AA.

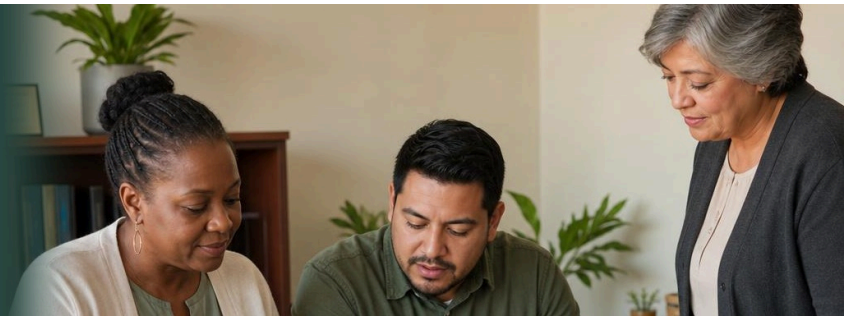

Your state's rules, per body
Posting deadlines and notices set for the statute that applies to each meeting body.

BUILT BY PEOPLE WHO'VE RUN AGENDA DAY

A system built for agenda day.

ONE ITEM RECORD

Every item keeps its history, start to finish.

Department and submitter ownership is set at submission and stays with the item through every review, the agenda and final action. Use it with Govinity Gavel, and recorded votes update the item's status automatically.

MOST AGENCIES TODAY: SEPARATE TOOLS FOR EACH STEP

Boards and commissions	Agenda software	Meeting and video software	Minutes software	Archive

WITH GOVINITY: ONE PLATFORM, ONE RECORD

Tenure	Govinity AgendaCycle	Gavel

FITS HOW YOU ALREADY WORK

Your tools, your meetings, your format

- Draft and route in Microsoft Word, SharePoint and OneDrive
- Laserfiche records handoff, live at the City of Lebanon, NH
- Joint meetings and committees of the whole, built in
- Add one item to several meetings from the item page
- Your published agenda format, kept when you switch

We've run agenda day too.

AgendaCycle was shaped by a team that includes former municipal clerks and board secretaries, with a combined three decades inside the room. We've prepped packets the night before and fielded calls from council members at all hours.

LIVE ON AGENDACYCLE

Mesa Public Schools, AZ
The largest school district in Arizona, fully live.

Alachua County, FL
Live county-wide: 30 departments and 210 users.

City of Salina, KS
Selected through open evaluation, fully live.

About Govinity

Govinity helps local governments keep every public decision on the record, in one place. Founded in 2025 by public meeting technology veterans with more than 25 years serving government, Govinity is founder-led and serves 18 public-sector customers in 11 states.
