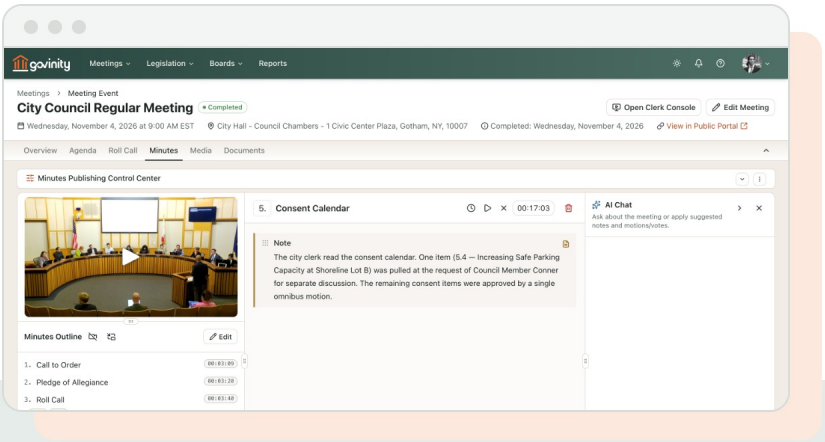
GOVINITY GAVEL

Meetings streamed. Votes captured. Everything in hand.

Motions, roll call, speakers, streaming and captions, from first gavel to last. Every vote is on the record the moment it happens.

Minutes start from your agenda, not a blank page. AI assists; the clerk decides.



HOW GAVEL WORKS

1

Run the meeting

Motions, roll call, speakers and the live stream.

2

Capture decisions

Votes tied to their agenda item as they happen.

3

Review minutes

Item by item from the agenda, with AI help.

4

Approve and publish

Staff approve before anything is published.

WHY GAVEL

Run the room. Capture the decision. Keep the record.

Natively integrated

Built on one platform with Tenure and AgendaCycle. Votes update the agenda item automatically.

Votes on the record, live

Votes tie to their agenda item, with results on the dais and the public screen at the same time.

Transcripts you can search

Diarized transcripts name every speaker. Click a line to jump to that moment in the video.

Agenda-indexed video

Every agenda item links to its place in the recording. No manual timestamps.

Minutes from the agenda

Work item by item, with motions and votes filled in. Nothing publishes until staff approve it.

Works with your equipment

Works with Zoom and your existing capture or YouTube feed. No new hardware for the base setup.

BUILT BY PEOPLE WHO'VE WRITTEN THE MINUTES

Run the meeting. Keep the record.

ONE MEETING RECORD

Every decision, tied to its item and its video.

Gavel records each motion and vote against its agenda item, links the item to its moment in the video, and builds the minutes from that same record.

MOST AGENCIES TODAY: SEPARATE TOOLS FOR EACH STEP

Boards and commissions	Agenda software	Meeting and video software	Minutes software	Archive

WITH GOVINITY: ONE PLATFORM, ONE RECORD

Tenure	AgendaCycle	Govinity Gavel

INCLUDED WITH GAVEL

Watch live or on demand

- Live and on-demand video, with no account, app or paywall
- Live captions on every meeting
- Jump straight to any agenda item in the video
- Searchable transcripts, open to everyone
- Built-in translation into 12 languages

Your data stays yours.

No AI model training on agency data, and nothing shared between agencies. AI features run under enterprise API terms that prohibit using your prompts or outputs for training.

LIVE ON GAVEL

Mesa Public Schools, AZ

Minutes, streaming and voting from the dais, fully live.

City of Salina, KS

In-chamber voting live, with a full municipal deployment.

Minutes, not hours

Processing a video and its transcript takes minutes, whatever the meeting length.

About Govinity

Govinity helps local governments keep every public decision on the record, in one place. Founded in 2025 by public meeting technology veterans with more than 25 years serving government, Govinity is founder-led and serves 17 public-sector customers in 10 states.
