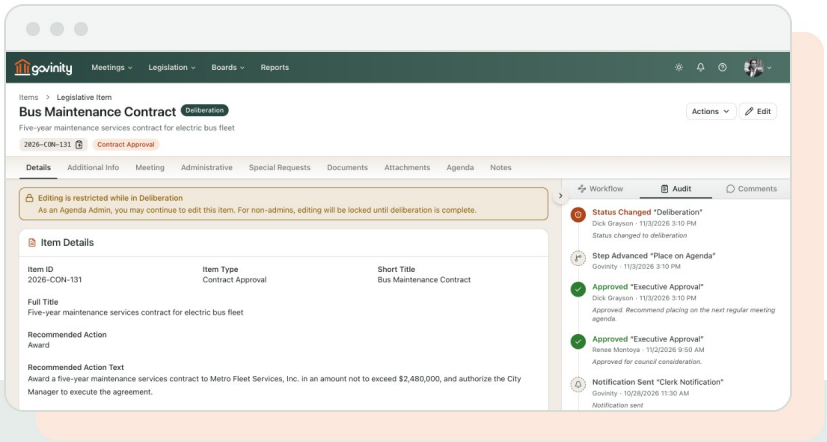
govinity

GOVINITY FOR PROCUREMENT

# Secure to run. Simple to buy.

Govinity connects procurement, agenda management and board approval in one system, built with procurement's workflow in mind from the start.

One license. One contract. One security review.



THE PROCUREMENT PROBLEM

## A vendor that doesn't deliver costs you more than software. It costs you the process.

A sourcing process takes months to do right, and it all starts over when a vendor doesn't deliver.

WHY PROCUREMENT TEAMS CHOOSE GOVINITY

## What your evaluation will find.

### Natively integrated

Agendas, minutes, streaming and boards on one platform: one contract, one renewal, one security review.

### Procurement works in it too

Procurement submits, routes and tracks its own agenda items. No re-keying, no chasing status by email.

### Every action on the record

Contract approvals and awards move through auditable workflows, each action timestamped.

### A price that doesn't creep

One enterprise license, with no per-user, per-meeting or per-board fees. Support is included.

### Security answers up front

SSO and MFA, AI terms that bar training on your data, and a SOC 2 Type II audit underway.

### References you can call

Every reference is a working customer, and anything serious reaches a founder directly.

EASY TO BUY · COOPERATIVE CONTRACT PARTNER

# A faster, simpler path to procurement.

Govinity is Vertosoft's exclusive provider of public meeting and legislative management solutions. Buy Govinity through cooperative purchasing, on a trusted contract vehicle, and skip months of solicitation work.

### Cooperative purchasing via Vertosoft

Buy through a competitively solicited cooperative contract your agency can move on quickly.

### Shorter timelines

Pre-negotiated terms and pricing mean months of solicitation work can be avoided.

### Less administrative overhead

One path from evaluation to purchase order, with documentation procurement can stand behind.

WHAT'S IN THE CONTRACT

## No surprises after signing

- One enterprise license for the whole organization
- Support included, with unlimited support incidents
- Configuration included with every implementation
- Implementation priced separately
- A named Project Manager, then a Customer Success Manager
- Insurance certificates available on request

## Built by people who know procurement.

Our founding team includes former leaders of ProcureNow, so we know the routing, the sign-offs and the accountability from the inside. That shapes how the product works, not just how it's sold.

TRUSTED BY PUBLIC AGENCIES IN 10 STATES

## About Govinity

Govinity helps local governments keep every public decision on the record, in one place. Founded in 2025 by public meeting technology veterans with more than 25 years serving government, Govinity is founder-led and serves 17 public-sector customers in 10 states. Managing public meetings and the decisions made in them is our only business.
