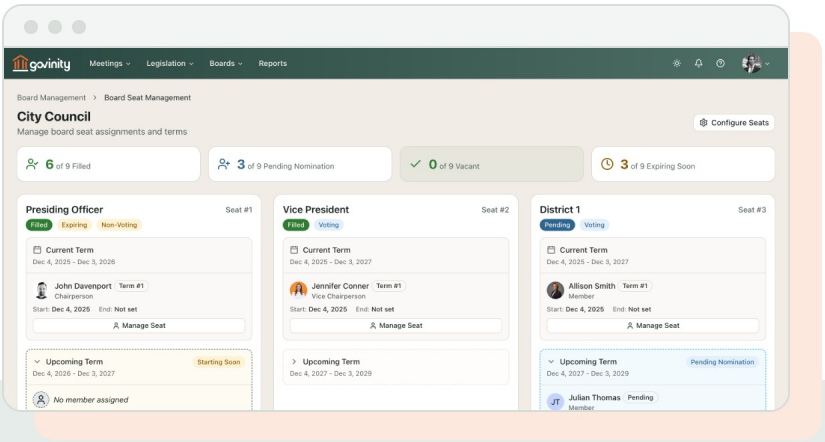
GOVINITY TENURE

Application to appointment. And everything after.

Other boards tools stop at the appointment. Tenure keeps going, from vacancy to application to appointment, and through every term that follows.

Start with Tenure without replacing your agenda or meeting system.



HOW TENURE WORKS

1. **Configure**
   Boards, seats, terms and qualifications.
2. **Recruit**
   Open seats and online applications.
3. **Review**
   Your review steps, every step logged.
4. **Appoint**
   Linked to the seat and the official record.
5. **Monitor**
   Terms tracked, expiring seats flagged.

WHY TENURE

Every seat filled. Every term tracked. No surprises.

Natively integrated
Built on one platform with AgendaCycle and Gavel. Members flow into agendas, votes and minutes.

Split terms, built in
A mid-term vacancy splits the term for you. Staggered terms calculate from each seat's dates.

No surprise vacancies
Expiring terms and aging vacancies are flagged early, so outreach starts before a seat goes empty.

Applications in one place
Custom forms for each board, assigned reviewers, and one application for several seats.

Public posting, handled
Local Appointments Lists generated in Tenure and posted publicly. Reports by district seat.

Fast to start
Often the first Govinity product to go live. Configuration included with implementation.

ONE MEMBER RECORD

Other tools stop at the appointment. Tenure keeps going.

Connect Tenure with Govinity AgendaCycle and Govinity Gavel, and the member you appoint is the same person on the agenda, in the roll call and in the minutes. Nobody types them in again.
